- This course is the best academic experience that that I have ever had. I am so lucky to be in this class.

- Professor Lim is very helpful and enthusiastic in this class. He offers great resources and many additional help, like mock interviews, for us.

- Professor Lim is one of the best professor's I've ever had. His commitment to his student is beyond impressive.

- Very practical, already feel like I'm getting much faster at solving interview problems.

- The workload is not arranged properly. It takes even more time than my 5 credit course every week. I can not attend other classs' office hour becasue this class has meeting from monday to thursday. Do learn a lot but the sunday's contest is time consuming and not helpful for just prepare for tech interview.
